2. [REDACTED] telephoned to recommend that [REDACTED] replace him as Chairman of the Agency's Automatic Data Processing Committee and that the Management Staff take over the DD/I Feasibility Team. He will be in to discuss these matters with me within a few days.

5. Messrs. Garrison, [REDACTED] were up to talk to me about sculpture for the new building. They are very fearful that we do not have enough money in our contingency fund to go forward with sculpture at this time. Change orders made necessary [REDACTED] and putting the Development Projects Division in the building have been quite expensive. If and when we do employ a sculptor [REDACTED] and the Public Buildings Service have agreed on an individual whom they would like to commission. Incidentally, this is one of the people suggested by [REDACTED] as a possibility.

6. I asked Messrs. [REDACTED] to have a talk with Mr. Aiken of the District Highway Department about the demolition of "M" and "Q" Buildings. I do not wish to go to Commissioner Welling on this unless I have to. I also asked them to find out what the latest plans are for construction of the Cabin John Bridge and to review quickly the

Bureau of Public Roads property to identify areas where we might improvise athletic fields for our people when we move to the new building.

7. Reviewed with Emmett Echols our proposed letter to the Bureau of the Budget concerning our "separation out procedures" and forwarded it to the Director for signature.

8. I approved of a proposal presented by Emmett Echols whereby we would give our contract employees, who are comparable to staff employees, health insurance similar to that provided in the new Government plan for staff employees.
